No part of this publication may be reproduced or transmitted in any form or by any means, electronic or mechanical, including photocopy, recording, or any information storage and retrieval system, without permission in writing from the copyright owner.

The appearance of the code at the bottom of the first page of an article in this journal indicates the copyright owner's consent that copies of the article may be made for personal or internal use, or for the personal or internal use of specific clients. This consent is given on the condition, however, that the copier pay the stated per copy fee through the Copyright Clearance Center, Inc. (27 Congress Street, Salem, Massachusetts 01970), for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law. This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale. Copy fees for pre-1987 articles are as shown on the article title pages: if no fee code appears on the title page, the copy fee is the same as for current articles.

CONTENTS OF VOLUME 44

NUMBER 1, OCTOBER 1987

HUMAN STUDIES

P. RITA, P. P. REDDY, AND S. VENKATRAM REDDY. Monitoring of Workers Occupationally Exposed to Pesticides in Grape Gardens of Andhra Pradesh 1

JOHN GAMBLE, WILLIAM JONES, AND STEPHEN MINSHALL. Epidemiological–Environmental Study of Diesel Bus Garage Workers: Chronic Effects of Diesel Exhaust on the Respiratory System 6

L. PAOLETTI, D. BATISTI, S. CAIAZZA, M. G. PETRELLI, F. TAGGI, L. DE ZORZI, M. A. DINA, AND G. DONELLI. Mineral Particles in the Lungs of Subjects Resident in the Rome Area and Not Occupationally Exposed to Mineral Dust 18

MARTHA L. WARNOCK AND GENE WOLERY. Asbestos Bodies or Fibers and the Diagnosis of Asbestosis 29

HUGO CHIODI AND JOHN G. MOHLER. With the Technical Assistance of Manuel D. Suarez. Nonautocatalytic Methemoglobin Formation by Sodium Nitrite under Aerobic and Anaerobic Conditions 45

ANIMAL STUDIES

STEPHEN R. OVERMANN, JEANNE KOSTAS, LLOYD R. WILSON, WILLIAM SHAIN, AND BRIAN BUSH. Neurobehavioral and Somatic Effects of Perinatal PCB Exposure in Rats 56

D. R. TASAT AND B. M. DE REY. Cytotoxic Effect of Uranium Dioxide on Rat Alveolar Macrophages 71

AGNETA OSKARSSON. Comparative Effects of Ten Dithiocarbamate and Thiuram Compounds on Tissue Distribution and Excretion of Lead in Rats 82

R. H. STEVENS AND H. F. CHENG. Lymphocyte Proliferative Responses to Mitogens in Rats Having an Ancestry of Perinatal Iodine-131 Insult 94

MARIE A. SHATOS, JACQUELINE M. DOHERTY, JOANNE P. MARSH, AND BROOKE T. MOSSMAN. Prevention of Asbestos-Induced Cell Death in Rat Lung Fibroblasts and Alveolar Macrophages by Scavengers of Active Oxygen Species 103

SURESH K. JAIN AND A. K. SUSHEELA. Effect of Sodium Fluoride on Antibody Formation in Rabbits 117

SARASWATI BULUSU AND INDIRA CHAKRAVARTY. Effect of Subacute Administration of Three Organophosphorus Pesticides on the Hepatic Phosphatases under Various Nutritional Conditions 126

W. K. Liu, M. H. Wong, N. F. Y. Tam, and S. E. Sun. Fly Ash Hemolysis as Related to Its Alkalinity 136

MINERALOGICAL STUDIES

R. L. Virta and J. M. Segreti. A Model for Predicting Crocidolite Fiber Size Distributions 148

Number 2, December 1987

HUMAN STUDIES

Masatoshi Nakano, Keiko Aoshima, Terutaka Katoh, Hidetoyo Teranishi, Minoru Kasuya, and Takashi Katoh. Severity of Tubular Brush Border Damage in Cadmium-Polluted Area (Jinzu River Basin): Clinical Role of Urinary Trehalase . . 161

D. Trichopoulos, A. Hatzakis, E. Wynder, K. Katsouyanni, and A. Kalandidi. Time Trends of Tobacco Smoking, Air Pollution, and Lung Cancer in Athens 169

Koichiro Murai, Ken Okamura, Hiroshi Tsuji, Eiji Kajiwara, Hidenori Watanabe, Kimihiro Akagi, and Masatoshi Fujishima. Thyroid Function in "Yusho" Patients Exposed to Polychlorinated Biphenyls (PCB) 179

E. Neil Schachter, Theodore J. Witek, Jr., Deborah J. Brody, Tarik Tosun, Gerald J. Beck, and Brian P. Leaderer. A Study of Respiratory Effects from Exposure to 2.0 ppm Formaldehyde in Occupationally Exposed Markers 188

D. M. Drechsler-Parks, J. F. Bedi, and S. M. Horvath. Pulmonary Function Responses of Older Men and Women to NO_2 . . 206

Jos Mes. Polychlorobiphenyl in Children's Blood 213

Allan H. Marcus and Joel Schwartz. Dose–Response Curves for Erythrocyte Protoporphyrin vs Blood Lead: Effects of Iron Status 221

ANIMAL STUDIES

P. K. Srivastava, Y. Singh, S. R. Tyagi, and U. K. Misra. Induction of Hepatic Drug Metabolizing Enzymes by Coal Fly Ash in Rats 228

Srinivas R. Katti and A. G. Sathyanesan. Lead Nitrate-Induced Nuclear Inclusions in the Oocytes of the Catfish *Clarias batrachus* (L) 238

Gregory L. Finch, Karen L. McNeill, Thomas L. Hayes, and Gerald L. Fisher. *In Vitro* Interactions between Pulmonary Macrophages and Respirable Particles 241

Mairam Gulumian and Terence Arthur Kilroe-Smith. Crocidolite-Induced Lipid Peroxidation. II. Role of Antioxidants . . 254

CLEAMOND D. ESKELSON, MILOS CHVAPIL, KENNETH A. STROM, AND JAROSLAV J. VOSTAL. Pulmonary Phospholipidosis in Rats Respiring Air Containing Diesel Particulates 260

ABU T. KHAN AND JUDITH S. WEIS. Effect of Methylmercury on Egg and Juvenile Viability in Two Populations of Killifish *Fundulus heteroclitus* 272

ANNE JOHANSSON, BENGT ROBERTSON, TORE CURSTEDT, AND PER CAMNER. Alveolar Macrophage Abnormalities in Rabbits Exposed to Low Concentrations of Trivalent Chromium 279

RICHARD B. SCHLESINGER, KEVIN E. DRISCOLL, AND THOMAS A. VOLLMUTH. Effect of Repeated Exposures to Nitrogen Dioxide and Sulfuric Acid Mist Alone or in Combination on Mucociliary Clearance from the Lungs of Rabbits. 294

R. PASQUINI, G. SCASSELLATI SFORZOLINI, A. SAVINO, G. ANGELI, AND S. MONARCA. Enzyme Induction in Rat Lung and Liver by Condensates and Fractions from Main-Stream and Side-Stream Cigarette Smoke 302

IN VITRO STUDIES

F. VALERIO, D. BALDUCCI, AND A. LAZZAROTTO. Adsorption of Proteins by Chrysotile and Crocidolite: Role of Molecular Weight and Charge Density 312

MATHEMATICAL MODELS

PER GERDE AND PETER SCHOLANDER. A Mathematical Model of the Penetration of Polycyclic Aromatic Hydrocarbons through the Bronchial Lining Layer 321

REVIEW

N. J. SNOEIJ, A. H. PENNINKS, AND W. SEINEN. Biological Activity of Organotin Compounds—An Overview 335

BOOK REVIEW

GERALD R. IWAN. *Biological Indicators of Freshwater Pollution and Environmental Management*. By J. M. Hellawell. 354

ANNOUNCEMENTS 356

AUTHOR INDEX FOR VOLUME 44 358

CUMULATIVE SUBJECT INDEX FOR VOLUMES 42–44 360

INSTRUCTIONS TO AUTHORS

Manuscripts. Papers may represent original research in any of the disciplines concerned with man–environment relationships: it is anticipated that the relevance of the findings to broad problems of environmental biology and environmental medicine will be considered. Analytical and integrative reviews are equally eligible. The editorial emphasis of the Journal is on research concerning health effects of environmental alterations, broadly considered; engineering and control efforts are well served elsewhere.

Selected Book Reviews will be included.

Submission of Manuscripts. These should be submitted in duplicate to ENVIRONMENTAL RESEARCH, Editorial Offices, Environmental Sciences Laboratory, Mount Sinai School of Medicine, Fifth Avenue and 100th Street, New York, New York 10029.

Original papers only will be considered. Manuscripts are accepted for review with the understanding that the same work has not been and will not be nor is presently submitted elsewhere, and that its submission for publication has been approved by all of the authors and by the institution where the work was carried out; further, that any person cited as a source of personal communications has approved such citation. Written authorization may be required at the Editor's discretion. Articles and any other material published in *Environmental Research* represent the opinions of the author(s) and should not be construed to reflect the opinions of the Editor(s) and the Publisher.

Authors submitting a manuscript do so on the understanding that if it is accepted for publication, copyright in the article, including the right to reproduce the article in all forms and media, shall be assigned exclusively to the Publisher. The Publisher will not refuse any reasonable request by the author for permission to reproduce any of his or her contributions to the journal.

All papers will be published in English. The text of the manuscript should not exceed 10 double-spaced pages (excluding title page, abstract, and references).

Form of Manuscript. Manuscripts should be typewritten (not mimeographed) with double or triple spacing and wide margins on high-quality bond paper. Subdivision of the article into *Abstract* (50–200 words), *Introduction, Materials and Methods, Results, Discussion, Acknowledgments, and References* is recommended. In addition, section headings are often useful.

The first page of the manuscript should contain the article title, author's name, and affiliation (include zip code where applicable). The second page should contain a proposed running head of fewer than 40 characters and the address of the person to whom proofs are to be sent. In the upper left-hand corner of each following page (including Reference pages, Tables, etc.) please type a shortened form of the title and the surname of the senior author. Please also number each of these pages. The abstract should not exceed 200 words. Include five descriptive key words for computer-aided searching.

Abbreviations. Follow the usage established by *Chemical Abstracts.* If others are utilized define on first use.

Figures. Number all figures consecutively with Arabic numerals; legends should be typed together on a separate sheet. Lettering on the original figures should be large enough to take a reduction of 50–60 percent. Graphs should be plotted with black India ink on light blue coordinate paper, no larger than 8½ × 11 in. Grid lines that are to show in the engraving should be inked in black. Photographs should be glossy prints (5 × 7 or 8 × 10 in.) with strong contrasts. X-Rays should be right-reading glossy prints. Providing an overlay that indicates the most critical areas of halftones will aid in ensuring high-quality reproduction. Illustrations in color can be accepted only if the authors defray the cost.

Tables. Number all tables in order of appearance (with Arabic numerals); type each table double-spaced on a separate page. Each table should have a short descriptive title typed (double-spaced) above the table. Footnotes to tables (indicated by superscript lowercase letters, ^{a,b}, etc.) should be typed (double-spaced) at the end of the table. Keep in mind the dimensions of the journal when planning the number of columns in a table.

Footnotes. Text footnotes should be avoided whenever possible.

References. These are to be cited in the text by the author's name and year of publication. References should be listed alphabetically in an unnumbered list at the end of the paper in the following style:

Coleman, D. C., Reid, C. P. P., and Cole, C. V. (1983). Biological strategies of nutrient cycling in soil systems. *In* "Advances in Ecological Research" (A. MacFayden and E. D. Ford, Eds.). Vol. 13, pp. 1–55. Academic Press, New York/London.

Rice, E. L. (1984). "Allelopathy," 2nd ed. Academic Press, New York.

Wong, M. H., and Lau, W. M. (1985). Root growth of *Cynodon dactylon* and *Eleusine indica* collected from motorways at different concentrations of lead. *Environ. Res.* **36,** 257–267.

The names of journals should be abbreviated according to *Index Medicus,* 1980, or *Chemical Abstracts Service Source Index,* 1985. Include in the reference list articles that are "in press," but "manuscript in preparation," "personal communication," and "unpublished observations" are to be avoided.

Reprints. A reprint order form will accompany the proofs. The corresponding author receives 50 reprints free of charge, and additional copies may be ordered.

Correspondence. Editorial communications should be addressed to ENVIRONMENTAL RESEARCH, Editorial Offices, Environmental Sciences Laboratory, Mount Sinai School of Medicine, Fifth Avenue and 100th Street, New York, NY 10029. Correspondence and information concerning subscriptions should be addressed to Academic Press, Inc., Journal Subscription Department, 1 East First Street, Duluth, MN 55802. Correspondence concerning manuscripts in production and proofs should be addressed to Academic Press, Inc., Journal Production Department, 1250 Sixth Avenue, San Diego, CA 92101.
